Standardisierte Gesundheitsdaten für AAL

Samat Kadyrov

Short description: (Vortrag wird auf Deutsch sein, Fragen ev. auf Englisch)

Due to the relative increase of elderly people and chronic diseases (such as diabetes and heart disease) in many industrialized countries, there is increase in the development of "personal health devices (PHDs)". This project aims to implement a standardized interface between PHDs and AAL home automation platform using ISO 11073-20601 standard and Bluetooth as its transport protocol.
